

WHAT IS DMPTOOL?

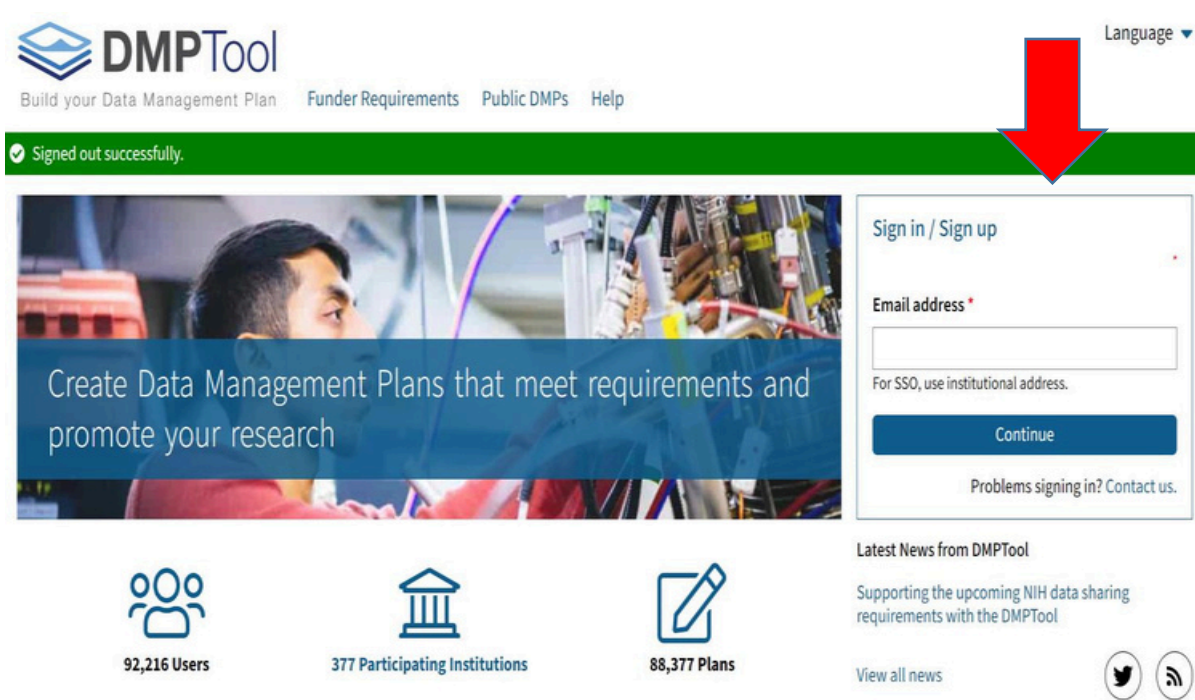

With **DMPTool** you can create and share data management plans. It provides step-by-step [guidance for creating your own DMP](#), including templates and sample plans to help you [address requirements](#) specific to Manicaland State University of Applied Sciences (MSUAS) and your funding sources.

USING DMPTOOL AT MSUAS

MSUAS is a **DMPTool** partner institution. Log in using your **MSUAS email address**.

Go to **DMPTool**

- Enter your MSUAS email address and continue.

The screenshot shows the DMPTool website interface. At the top left is the logo "DMPTool" with the tagline "Build your Data Management Plan" and navigation links for "Funder Requirements", "Public DMPs", and "Help". A green notification bar at the top says "Signed out successfully." On the right, there is a "Language" dropdown menu. A large red arrow points down to the "Continue" button in the sign-in/sign-up form. The form includes a "Sign in / Sign up" header, an "Email address" input field with a red asterisk, and a note: "For SSO, use institutional address." Below the form are three statistics: "92,216 Users" (with a people icon), "377 Participating Institutions" (with a building icon), and "88,377 Plans" (with a document icon). At the bottom right, there is a "Latest News from DMPTool" section with the text "Supporting the upcoming NIH data sharing requirements with the DMPTool" and a "View all news" link, along with social media icons for Twitter and RSS.

- Land on New account Sign up, enter required details and click **sign up**.
